

Chatsworth Wool From Sheep to Sleep

Grown with Love & Care

Our bedding begins its life on the parkland of the Chatsworth Estate. The sheep are loved and allowed to run free. This not only ensures happy sheep, but high grade wool - perfect for Woolroom bedding.

Sorted & Scoured

After shearing, the wool is transported to our processing facility, where it is checked, sorted and graded. It is then sent for scouring (cleaning and processing), ready to be turned into blissful machine washable wool bedding.

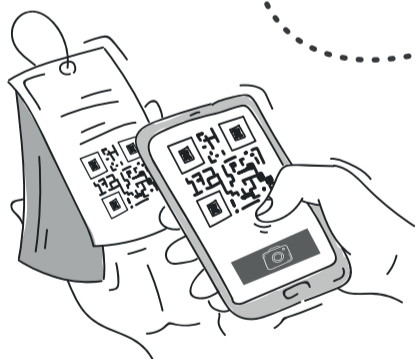

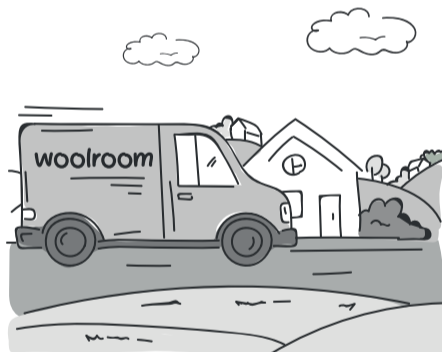

Hand-Crafted

The processed wool is transported to our workshop, where it is lovingly hand-crafted into the finest bedding and mattresses by our highly skilled artisans.

Delivered with Care

Once your order is placed, it's shipped out to you promptly in fully recyclable packaging. We'll keep you updated every step of the way, with a 1 hour time slot and numerous delivery options. You can even track your drivers whereabouts.

Trace it Back

Once your products arrive, you'll find a QR Code on your tag. Scan it with your phone to find out more about the Chatsworth wool that went into your bedding.

Sleep Soundly

Lay down your head and indulge in the most natural, rewarding sleep you can experience, knowing exactly how your bedding came to be - feeling every ounce of love and care that went into its creation.
